The board of directors' of DORO AB (publ) proposal to authorise the board to issue new shares

The board proposes that the annual general meeting authorises the board to, on one or several occasions and for the period until the next annual general meeting, resolve on new issues of shares without preferential rights for the shareholders of not more than a total number of shares corresponding to 10 % of the number of outstanding shares in the company as per the date of this notice. Such new issue resolution shall include a provision that new shares shall be paid in kind or by way of set-off of claim. The purpose of the authorisation is to provide the board with flexibility in its work to secure that the company, in a suitable way, can be provided with capital for the financing of acquisitions of companies and businesses.

The CEO shall have the right to make such minor adjustments to this resolution that may be necessary in connection with registration with the Swedish Companies Registration Office.
