1.2 Solution for 530X, Secure 628, 624 and 625

For these models the popup must be provoked. Manual install is not available in same way as for 55** and 65** models.

Follow these steps:

1.  Select **Settings**
2.  Select **Weather**
3.  Select **City**
4.  Write an city and press **OK**
5.  Wait
6.  Press **Yes**
7.  Select city and press **OK**
8.  Done!

1.3 Solution for Secure 580

For this model the popup must be provoked. Manual install is not available in same way as for 55** and 65** models. Follow these steps:

1. If there is a Doro Experience account setup before then synchronize manually and move to step 4. If no account previously then continue to step 2.

2. Go to **Settings** and select **Doro Experience**

3. Create an account. Note that you cannot use same account created previously due to that IMEI is linked to accounts created.

4. Press **Yes** and then **don't** create the account. New certificate is now installed.
